Width:	806 mm
Depth:	490 mm
Height:	120 mm

Similar to illustration, technical modifications reserved. Without decoration.

The sterile goods basket Da Vinci protects robotic surgical instruments during transport between preparation and the operating theatre.

The Hupfer Da Vinci sterile goods basket carries and protects valuable endoscopes from the Da Vinci robotic system during transport and storage. The Hupfer sterile goods basket boasts many clever details:

The wire loops on the Da Vinci sterile goods basket protect the soft packaging of the medical instruments being transported. There are handle openings on the sides for safely and comfortably carrying valuable sterile goods. The Hupfer sterile goods basket is stackable for efficient use of space and safe storage of sterile medical products.

The high-quality sterile goods basket is made of electro-polished stainless steel for sparkling hygiene. The dimensions are perfectly matched to the Hupfer components for robot-assisted surgery.

From preparation to the operating theatre, the Hupfer Da Vinci range supports safe processes and suitable sterile goods logistics in your hospital.

- Wire loops protect the soft packaging of the goods being transported
- Handle openings ensure an ergonomic and secure hold when carrying
- Stackable design ensures efficient use of space
