Technical data

Insertion type:	Crosswise insertion
Payload:	90 kg
Weight:	96.415 kg
Width:	1119 mm
Depth:	769 mm
Height:	1062 mm

The container transport cart carries and protects sterile goods baskets Da Vinci loaded with Da Vinci endoscope baskets including soft packaging and the prepared instrument.

The efficient Da Vinci stainless steel container transport cart is used for convenient transport and storage of Da Vinci sterile goods baskets with the appropriate Da Vinci endoscope baskets and their soft packaging. The Hupfer sterile goods cart ensures easy handling and efficiency in any medical working environment.
The enclosed design protects the valuable sterile goods from environmental influences and contamination during transport.
The installed drawer frame sets are the perfect fit for Da Vinci sterile goods baskets from Hupfer. Each Da Vinci sterile goods basket has a convenient place for an endoscope basket, its soft packaging and the prepared instrument. The height-adjustable design of the drawer frame sets allows ergonomic and safe removal of the transported instruments.
Thanks to its compact dimensions and low height, the Da Vinci container transport cart provides a good overview and is easy to manoeuvre.
Equipped with two lockable swivel castors and two fixed castors, it moves smoothly
