SteelcoBelimed Joint Venture Announcement in ANZ

Dear Customer,

Further to our announcement mid-2024, on the Joint Venture (JV) between Miele (Steelco) and Metall Zug (Belimed), SteelcoBelimed have progressed the integration of both brands in Australia and New Zealand. In Vitro Technologies is excited to announce our appointment as the exclusive supplier of the SteelcoBelimed product range in the Australian and New Zealand markets, effective 1 January 2027.

Drawing on more than fifty years of specialised experience in Sales, Service, and Education, In Vitro Technologies remains dedicated to fostering this partnership and delivering outstanding solutions to the A/NZ market. Since 2004, In Vitro Technologies has worked closely with Steelco, and we are pleased to continue this collaboration under the SteelcoBelimed brand. Together, we will offer an expanded and comprehensive product portfolio while maintaining excellence in service for the A/NZ Healthcare and Laboratory/Biomedical industries.

In Vitro Technologies will represent SteelcoBelimed's full range of advanced cleaning and sterilization workflow solutions, providing compliant turnkey solutions that meet the highest standards. These solutions are tailored for **Healthcare Disinfection & Sterilization, Endoscopy, Bio Medical Research and Laboratories**.

Leveraging our customer-focused market engagement and established relationships, In Vitro Technologies will manage **local sales, project coordination, installation, after-sales service, and education** for SteelcoBelimed products. This collaboration enables our A/NZ clients to access advanced technology, ongoing innovation, dependable local support, and sustained value through a partnership built on mutual **expertise and dedication**.

As we continue this journey, we will provide regular updates to ensure A/NZ clients are well informed and supported through this transition.

Yours sincerely,

Mala Naidu
